Please explain any unusual or extenuating circumstance that you feel the Kids' Chance of Nevada organization should consider when reviewing your scholarship request

My mother was left to raise three children on her own, ages 16, 5, and 3. I started kindergarten just days after my did

died. In the years the followed, I would lose all of my grandparents (two were unexpected deaths) and a childhood friend to suicide. My mom has always told me that the key to success is education. Being accepted to UNR is one of my greatest accomplishments, but I know my mom will struggle to pay for it since she is self-employed.
